PROFESSIONAL SUMMARY

Lead iOS Developer with 11+ years of experience designing and delivering scalable, high-performance mobile applications across **OTT, fintech, healthcare, mobility, and enterprise platforms**.

Proven track record of **leading mobile development teams**, delivering applications serving **1M+ users**, improving performance by **up to 40%**, and reducing crashes by **30%** through strong architecture, optimization, and engineering best practices.

Strong expertise in **Swift, SwiftUI, UIKit, Objective-C, MVVM, VIPER, Clean Architecture, and Swift Concurrency**, complemented by **2 years of Flutter development experience**. Experienced in **technical leadership, application architecture, code reviews, mentoring, and production delivery** for global clients including **Uber, Warner Bros. Discovery, Johnson Controls, and Qatar Government**.

PROFESSIONAL EXPERIENCE

Oct 2021 — Present

Application Development Specialist Accenture, Noida, IN

- Provided **technical leadership to a 3-member iOS team**, driving **code reviews, architecture discussions, technical decisions**, blocker resolution, and engineering best practices.
- Designed and enhanced scalable applications using **Swift, SwiftUI, UIKit, Objective-C, and Flutter**, applying **MVVM, VIPER, Clean Architecture, and reusable component design**.
- Delivered **enterprise-grade mobile solutions** for **Warner Bros. Discovery, Uber, Johnson Controls, and Qatar Government (MCIT)** across OTT, mobility, building technology, and digital government domains.
- Delivered approximately **2 years of hands-on Flutter development** on Johnson Controls applications, contributing to **cross-platform development, API integration, debugging, performance optimization, and production delivery**.
- Improved application performance by **up to 40%** through **API optimization, caching, UI rendering, memory optimization, and code improvements**.

- Reduced application crashes by **30%** through **crash analysis, memory optimization, debugging, and code refactoring**.
- Developed OTT playback features including **Seek, Play/Pause, Fast Forward/Rewind, and Skip Intro**, along with **MUX analytics and user-engagement tracking**.
- Collaborated with **product, backend, QA, UX, and cross-functional teams**, contributing to **Uber Driver/Rider automation testing and GraphQL-based analytics integrations**.

Feb 2018 — Sep 2021

Associate Tech Lead ANR Software Pvt. Ltd., Noida, IN

- Led a **4-member iOS development team**, driving end-to-end delivery from requirement analysis through testing and **App Store release**.
- Designed and developed the **ERS Foundation framework**, centralizing reusable components across multiple iOS applications to improve consistency and reduce development effort.
- Designed and developed **AltaLogger**, an internal iOS debugging and logging utility for **API inspection, structured JSON/object visualization, and log sharing**.
- Conducted **code reviews, mentoring, technical problem-solving, and iOS best-practice adoption** across the team.
- Developed production iOS applications using **Swift and UIKit** for workforce, restaurant operations, scheduling, inventory, compliance, and analytics solutions.
- Managed **TestFlight deployments, CI/CD pipelines, release workflows, and production delivery** across multiple applications.
- Contributed to mobile solutions serving **1M+ cumulative users** across enterprise and workforce-management applications.

Feb 2016 — Feb 2018

Program Analyst EBIX India Software Pvt. Ltd, Noida, IN

- Developed and maintained **iOS and macOS applications** across **healthcare, fintech/remittance, and education domains** using **Objective-C and native Apple frameworks**.
- Built mobile features integrating backend services for **payments, money transfers, scheduling, healthcare workflows, and educational solutions**.
- Contributed to **ItzCash mWallet and ItzCash Remittance**, implementing **mobile payments, beneficiary management, money transfer, and transaction workflows**.
- Developed healthcare applications including **Provider's Scheduling Agent and Ask A Doctor**, supporting appointment scheduling and digital healthcare workflows.
- Participated across the full development lifecycle, including **requirement analysis, development, testing, defect resolution, optimization, and application delivery**.

Jan 2015 — Feb 2016

Jr. Developer ANR Software Pvt. Ltd, Noida, IN

- Developed and maintained native iOS applications using **Objective-C, UIKit, and Apple frameworks** for restaurant and workforce-management solutions.
- Migrated legacy **Objective-C code to Swift**, improving code readability, maintainability, and long-term scalability while preserving existing functionality.
- Implemented features for **workforce scheduling, attendance tracking, operational checklists, and shift-management workflows**.
- Built reusable UI components and integrated **REST APIs/backend services**, contributing to debugging, bug fixes, and performance optimization.

SKILLS & TECHNICAL COMPETENCIES

Programming Languages: Swift, Objective-C, Dart

Mobile Development: iOS, Flutter, SwiftUI, UIKit, Swift Concurrency, async/await, GCD, OperationQueue, Auto Layout, Storyboard, APNS, App Lifecycle, Memory Management

Frameworks & APIs: Foundation, AVFoundation, Core Location, MapKit, REST APIs, GraphQL, URLSession

Architecture & Design: MVC, MVVM, VIPER, Clean Architecture, SOLID Principles, Delegation, Singleton, Reusable Component Design, Framework Design

Databases: Core Data, Realm, SQLite

Testing & Performance: XCTest, UI Testing, Automation Testing, Debugging, Instruments, Crash Analysis, Memory Optimization, Performance Optimization

DevOps & Release: Git, SVN, Azure DevOps, AppCenter, TestFlight, App Store Connect, CI/CD

Analytics & Monitoring: MUX, Firebase, Google Analytics, Databricks

Security: Keychain, Touch ID, App Transport Security, Certificate & Provisioning Management

AI & Developer Tools: Codex, Generative AI, Prompt Engineering, AI-assisted Development

Leadership: Team Leadership, Developer Mentoring, Code Reviews, Technical Discussions, Release Management, Cross-functional Collaboration

EDUCATION & CERTIFICATION

Education: MCA — IMS Engineering College, UPTU | 2014

BCA — Sherwood College of Professional Management, University of Lucknow | 2011

Certifications: Claude Certified Associate - Foundation | Claude Certified Developer - Foundation | Claude Certified Architect - Foundation | Udacity iOS User Interfaces with SwiftUI | Udemy MVVM Design Pattern Using Swift in iOS | Accenture People Leadership Credential – Chapter 1 & 2 | Accenture SRE Foundation
